

VILLAGE OF DOWNING ORDINANCE

Back-Flow Preventer Ordinance No. 2020-1

The Village Board of the Village of Downing does ordain as follows:

SECTION I : Back-Flow Preventer Ordinance No. 2020-1

A. Sewer Back-Flow Preventer.

(1) The property owner shall at his own expense, install, maintain, and test any and all sewer backflow preventers on his premises in compliance with Department of Safety and Professional Services (formerly Department of Commerce) requirements in Ch. Comm 82, Wis. Adm. Code. The property owner shall correct any malfunctions revealed by periodic testing of any sewer backflow preventer on his premises.

(2) The property owner shall not install a bypass around any backflow preventer unless there is a backflow preventer of the same type in the bypass. Property owners who cannot shut down operations for testing of the backflow prevention assembly must supply additional assemblies necessary to allow testing and maintenance to take place. In the event that the property owner installs a portable-water-using fixture, equipment or appurtenance upstream of the backflow preventer, such must have its own approved backflow prevention means.

B. Section not to supersede other ordinances. This section does not supersede the State Plumbing Code and any Village plumbing ordinances but is supplementary to them.

SECTION II: Severability

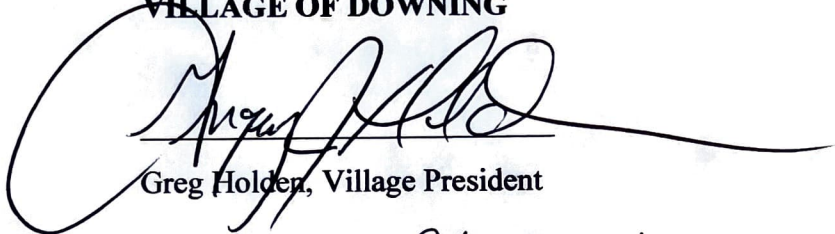

If any provision of this Ordinance or any application of this Ordinance to any person or circumstance is found to be invalid or unconstitutional, such a finding shall not affect the other provisions or applications of this Ordinance which can be given effect without the invalid or unconstitutional provisions or applications.

SECTION III: Effective Date

This Ordinance shall take effect upon passage and publication as provided by law.

Adopted this 8 day of June, 2020
